| 4.1 Description of first aid measure  | 25                                                                                                                                            |
| General advice                        | Move out of dangerous area. Take off all contaminated clothing immediately.                                                                   |
|                                       | Do not leave the victim unattended.Show this safety data sheet to the doctor in attendance.                                                   |
| In case of skin contact               | Wash off immediately with soap and plenty of water while removing all con-                                                                    |
|                                       | taminated clothes and shoes. If skin irritation occurs, seek medical advice/at-<br>tention.                                                   |
|                                       | In the case of contact with eyes, rinse immediately with plenty of water and seek medical advice.                                             |
| In case of eye contact                |                                                                                                                                               |

#### **SECTION 5: Firefighting measures** 5.1 Extinguishing media Suitable extinguishing media Carbon dioxide (CO2), Foam, Water spray, Dry powder Extinguishing media which must not High volume water jet be used for safety reasons 5.2 Special hazards arising from the substance or mixture Special exposure hazards arising Hazardous decomposition products formed under fire conditions. Exposure from the substance or preparation to decomposition products may be a hazard to health. itself, its combustion products, or released gases 5.3 Advice for firefighters Special protective equipment for In the event of fire, wear self-contained breathing apparatus. firefighting Additional information on firefight-Fire residues and contaminated fire extinguishing water must be disposed of in accordance with local regulations.Do not allow run-off from fire fighting to ing enter drains or water courses. The product itself does not burn. **SECTION 6: Accidental release measures** 6.1 Personal precautions, protective equipment and emergency procedures Personal precautions Use personal protective equipment. 6.2 Environmental precautions Environmental precautions Prevent further leakage or spillage if safe to do so. Do not flush into surface water or sanitary sewer system. Avoid subsoil penetration. 6.3 Methods and material for containment and cleaning up Methods for cleaning up Soak up with inert absorbent material (e.g. sand, silica gel, acid binder, universal binder, sawdust). Clean contaminated surface thoroughly. Treat recovered material as described in the section "Disposal considerations". 6.4 Reference to other sections Reference to other sections Disposal considerations See also section 13 SECTION 7: Handling and storage 7.1 Precautions for safe handling Advice on safe handling Handle and open container with care. Avoid contact with skin and eyes. Precautions Smoking, eating and drinking should be prohibited in the application area. For personal protection see section 8. Observe label precautions. Advice on protection against fire No special protective measures against fire required. and explosion 7.2 Conditions for safe storage, including any incompatibilities Keep in properly labelled containers. Containers which are opened must be Storage space and container recarefully resealed and kept upright to prevent leakage. quirements Storage specifications Protect from frost. **TRGS 510** 12

Recommended storage temperature 5 - 25 °C

### SECTION 8: Exposure controls/personal protection

#### 8.1 Control parameters

The product does not contain any relevant quantities of materials with critical values that have to be monitored at the workplace.

#### 8.2 Exposure controls

| Respiratory protection                  | Use the indicated respiratory protection if the occupational exposure limit is exceeded and/or in case of product release (dust).<br>Note: Should no job-related limit values are indicated, the product, which a monitoring exposure limit is allocated, do not contains ingredients in relevant concentrations.                              |
|-----------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Hand protection                         | Protective gloves complying with EN 374.Please observe the instructions re-<br>garding permeability and breakthrough time which are provided by the sup-<br>plier of the gloves. Also take into consideration the specific local conditions<br>under which the product is used, such as the danger of cuts, abrasion, and<br>the contact time. |
| Unsuitable material :                   | woven fabric, Leather gloves                                                                                                                                                                                                                                                                                                                   |
| Suitable material :                     | Nitriles                                                                                                                                                                                                                                                                                                                                       |
| Eye protection                          | Tightly fitting safety goggles                                                                                                                                                                                                                                                                                                                 |
| Skin and body protection                | Wear suitable protective equipment. Long sleeved clothing                                                                                                                                                                                                                                                                                      |
| General protective and hygiene measures | Handle in accordance with good industrial hygiene and safety practice. Keep<br>away from food, drink and animal feedingstuffs. Wash hands before breaks<br>and at the end of workday. Use protective skin cream before handling the<br>product. Avoid contact with the skin and the eyes.                                                      |

# **SECTION 9: Physical and chemical properties**

### 9.1 Information on basic physical and chemical properties

| Physical state                              | liquid                         |  |
|---------------------------------------------|--------------------------------|--|
| Form                                        | Liquid                         |  |
| Colour                                      | violet                         |  |
| Odour                                       | characteristic                 |  |
| рН                                          | 7,8 - 8,8                      |  |
| Temperature :                               | 20 °C                          |  |
| Melting point [°C] / Freezing point<br>[°C] | approx. 0 °C                   |  |
| Boiling point [°C]                          | approx. 100 °C                 |  |
| Evaporation rate [kg/(s*m²)]                | not determined                 |  |
| Vapour pressure [kPa]                       | < 1013 hPa                     |  |
| Temperature :                               | 50 °C                          |  |
| Vapour density                              | not determined                 |  |
| Density [g/cm <sup>3</sup> ]                | approx. 1,20 g/cm <sup>3</sup> |  |
| Temperature :                               | 20 °C                          |  |
| Water solubility [g/l]                      |                                |  |
| Remarks :                                   | miscible                       |  |
